

 More to Explore**Numbers Raised to Powers**

Knowing the first few multiples of each base can be helpful when solving exponential equations and inequalities. Completing the chart will help keep the powers of 2, 3, and 4 top of mind.

- 1) Complete the Numbers Raised to Powers chart.
- 2) Use the chart while working on the Lesson 38 Practice pages.

Numbers Raised to Powers			
	$x = 2$	$x = 3$	$x = 4$
$2^x$			
$3^x$			
$4^x$			
$5^x$			
$6^x$			
$7^x$			
$8^x$			
$9^x$			
$10^x$
