

Graphing Systems of Equations

1. Using the [Desmos® Graphing Calculator](#), type in and check your system of equations from any of the problems from Lesson 15 Part A Practice 1 or Practice 2.
 - a. Type in each equation individually.
 - b. Zoom in or out to find the intersection point.
 - c. Use your mouse to hover over the intersection point.
 - d. Type the ordered pair into the next row so you can see the intersection point on the system.
This will also help you verify that you have typed in and written down the ordered pair correctly.
