

Summer is full of sounds, from the chirps of crickets and cicadas in the evening to the roar of waves crashing on the shore. Describe the many sounds you can hear in summer.

A black and white line drawing of a large, curling wave, resembling a barrel wave, with a small boat inside its trough. The wave is positioned in the lower right corner of the page. The background consists of horizontal ruling lines. There are some small, faint marks on the page, including a small triangle near the top center and a small circle near the bottom center.
